FOR WALKTALL STUDIO

**Walktall Studio and Nicola Cerini are  
excited to launch the result of their  
first collaboration**

**APRONS!**

Renowned, iconic Australian designer Nicola Cerini established her Melbourne design studio in 1995 to produce highly individual textiles for furnishings and homewares. Since that time Nicola has continued to expand her diverse product range and to exhibit unique work.

Continually inspired by everyday objects, plants, animals and research into native flora, Nicola's ongoing passion for travel and pattern results in meticulously designed limited edition prints each season.
